

Victoria Thompson Nursery & Class One Assistant

Victoria is very excited at the prospect of joining the Waldorf community and is passionate about contributing in a meaningful way in her work with children. We are pleased that she will be able to share her warmth, energy and skill as an assistant in grade 1 as well as within the Early Childhood Nursery classroom.

Victoria is a mother of two young children, 5 and 8, and she enjoys providing opportunities for them to develop their love of learning through art, poetry and any other creative means at their disposal. Victoria successfully homeschooled her daughter for her first year of school, while also offering piano lessons to children at a variety of ages. Victoria has worked as an educational assistant for the playschool and kindergarten classes at the Hellenic Canadian School of Edmonton and comes with glowing references from her time there. Victoria adores the Waldorf philosophy and is eager to be a nurturing and encouraging presence. A support to the growing hearts and minds of the children, as well as the community surrounding them. "Where there is unity, there is always victory."

Outside the classroom, you will find Victoria in a multitude of different settings, from camping and hiking with her children, to various dance floors in the city. Yoga, art, poetry...you name it. Creativity is the joy of life.
