

Joeleana Thomas Grade 4 Co-Teacher

Hello! I've been teaching at the WISE since 2022. I started at Stettler Elementary teaching grade four and also supporting the lighthouse program which fostered student lead programming.

I then transitioned to an early literacy position teaching English and Spanish at Escuela Vista Grande Spanish Bilingual school. My family and I have recently moved back to St. Albert where I grew up. I was drawn to the WISE program because of its principle to meet the child where they are at in their learning journey. The WISE approach fosters the child's ability to be imaginative and find joy in real world learning experiences. These are values I hope to continue teaching not only to my students but also my son.

When I'm not teaching I'm outside enjoying all types of activities with my family and our two Huskies. Hiking, water sports, and bike rides are just a few of our favourites.
